

Steps to our beautiful FirmaPave pervious path

Step 1: Before

Step 2: Mulch Path for 2012 Fair

Step 3: Excavate & Base Layer

Entrance arch

Path through Prairie

Water for Wildlife ahead

L-Pollinator, Ahead-Raingarden, R-Water for Wildlife

Path ends at rear of Conservation Building

Beautiful new pervious FilterPave still in forms. Emerald Site Services custom-designed a portion so our spitting frog fountain demo drains back into the pond.

Beautiful durable surface in place

Meandering walkway

Path is a
harmonious
blend with our
planted areas
